

AMENDMENT UNDER 37 C.F.R. § 1.111
U.S. Application No.: 09/995,678

A2 14. (New) The constant velocity universal joint according to claim 8, further comprising
an undercoat provided between the surface of the retainer and the solid lubricant.

15. (New) The constant velocity universal joint according to claim 14, wherein the
undercoat is made of manganese phosphate.

16. (New) The constant velocity universal joint according to claim 7, wherein a surface
treatment layer formed in the inner and outer races is different than the surface treatment layer
formed in the surface of the retainer.
